

CHAPTER 167

UNINCORPORATED COMMUNITY LIGHT INDUSTRIAL (UC-IL) ZONING DISTRICT

- 167.010. Purpose and Intent
- 167.020. Small-Scale, Low-Impact Uses
- 167.025. Industrial Mill Sites
- 167.030. Standard Industrial Classifications
- 167.040. Permitted Uses
- 167.050. Uses Subject to Administrative Review
- 167.060. Conditional Uses

167.010. PURPOSE AND INTENT. The purpose of the Unincorporated Community Light Industrial (UC-IL) Zoning District is to implement the Comprehensive Plan policies related to industrial development by providing for industrial uses with limited off-site impacts such as noise, dust, or odor. This zone is applied to designated industrial lands within unincorporated communities.

Industrial activities in this zone generally consist of uses which complement agricultural and forest activities in the surrounding area, uses that require proximity to rural resources, or other uses which are small-scale and low impact.

167.020. SMALL-SCALE, LOW-IMPACT USES. Except as provided in Section 167.025, a small-scale, low impact use listed under Section 167.040(C) or Section 167.060(B) or (C) shall be established in a building or buildings not to exceed 40,000 square feet of floor space. The floor area calculation does not include outdoor storage areas.

Except as provided in Section 167.025, the establishment of a new industrial use listed under Section 167.040(C), Section 167.060(B), or Section 167.060(C) or expansion of an industrial use other than those listed under Section 167.040(A) which would exceed the 40,000 square foot standard shall require a Comprehensive Plan Amendment as specified in Chapter 115 of the Zoning Ordinance.

167.025. INDUSTRIAL MILL SITES. A use sited on an abandoned or diminished industrial mill site that was engaged in the processing or manufacturing of wood products is not subject to the small-scale, low-impact building size limitation, provided that the use will be located only on the portion of the mill site that was zoned for industrial use on October 28, 1994.

167.030. STANDARD INDUSTRIAL CLASSIFICATIONS. Standard Industrial Classification (SIC) code numbers for most of the uses in this zone are shown in parentheses after the listed use. The SIC codes are a coding system used by the federal government to identify specific industries. Two-digit codes are used most often in the Zoning Ordinance to describe general categories of uses. In some instances, more specific three and four-digit codes are used. A copy of the SIC Manual is available for use at the Community Development Department and provides a more detailed description of the uses described in each general category.

167.040. PERMITTED USES. Within any UC-IL Zone, no building, structure, or premises shall be used, enlarged, or designed to be used, erected, structurally altered, or enlarged except for one or more the following uses:

- (A) Expansion of an existing industrial use which existed on December 5, 1994;
- (B) Industrial uses which require proximity to rural resources:
 - (1) Any use permitted under Section 166.040(B);
 - (2) Cement, clay, glass and stone products manufacturing facilities (32);
- (C) Industrial uses which are small-scale, low-impact:
 - (1) Any use permitted under Section 166.040(C);
 - (2) Building contractors (general, highway and street contractors, heavy construction contractors) (15, 16);
 - (3) Special trade construction contractors (17);
 - (4) Veterinary office, hospital (074);
- (D) Transportation Improvements. [Amended by Ordinance 01-01]
- (E) Wind energy systems, meteorological towers, and photovoltaic systems that are not commercial power generating facilities, but not including wind energy systems utilizing a tower and meteorological towers that require tower lighting, are located in an adopted urban growth boundary, or that would require modification to the height or type of construction standards described in Section 112.135(C)(1). Wind energy

systems utilizing towers and meteorological towers are subject to standards listed in Sections 112.135 and 112.137. Roof-mounted, building-integrated, building-mounted and architectural wind energy systems that extend no more than an additional 5 feet above the highest ridge of the building's roof or 15 feet above the highest eave, whichever is higher, and do not exceed the height limitation of the zone, are subject to the standards listed in Section 112.137. Photovoltaic systems are subject to the standards described in Section 112.138. [Amended by Ordinance 09-06]

167.050. USES SUBJECT TO ADMINISTRATIVE REVIEW. The following uses are permitted, subject to review and approval under the prescriptive standards specified herein and as may otherwise be indicated by federal, state and local regulations and permits:

- (A) Wind energy systems utilizing a tower and meteorological towers outside of an adopted urban growth boundary that are not commercial power generating facilities that would utilize a tower(s) that requires lighting or that requires modification to the height or type of construction standards described in Section 112.135(C)(1), as provided in Sections 112.135 and 112.137. [Amended by Ordinance 09-06]

167.060. CONDITIONAL USES. When authorized under the procedure provided for conditional uses in this ordinance, the following uses will be permitted in any UC-IL Zone:

- (A) Industrial uses which require proximity to rural resources:
 - (1) Any use permitted under Section 166.060(A);
 - (2) Food and kindred products manufacturing (20);
 - (3) Livestock auctions and sales, including feed lots (0211);
 - (4) Lumber and wood products processing, manufacturing and storage facilities (24);
- (B) Industrial uses which are small-scale, low-impact:
 - (1) Any use permitted under Section 166.060(B);
 - (2) Manufacturing of computer equipment (35);
 - (3) Manufacturing of fabricated metal products (34);
 - (4) Paper and allied products manufacturing facilities (26);
 - (5) Metals, primary, manufacturing facilities (33);
 - (6) Metal fabricated products manufacturing facilities (345, 346);
 - (7) Special industry machinery manufacturing facilities (355);
 - (8) Automotive repair, services, and parking (75);
 - (9) Auction house or market;
 - (10) Motor freight depot (421);
 - (11) Bulk fuel storage;
- (C) Any other industrial use, where the buildings do not exceed 40,000 square feet of floor space provided that:
 - (1) The use is small in size and low impact; or
 - (2) The use is significantly dependent upon a specific resource located on agricultural or forest land; and
 - (3) The use will not have adverse impacts on surrounding farm and forest activities; and

- (4) The new use will not exceed the capacity of water and sewer service available to the site on December 5, 1994, or if such services are not available to the site, the capacity of the site itself to provide adequate water and absorb waste water.
- (D) Wind energy systems utilizing a tower and meteorological towers within an adopted urban growth boundary up to 100 feet in height that are not commercial power generating facilities, as provided in Sections 112.135 and 112.137. [Amended by Ordinance 09-06]

Appendix 1
Grand Ronde Unincorporated Community Light Industrial Properties Inventory
May, 2005

Number	Tax Map ID	Location	Uses	Size (acres ±)	Bldg. Size (sq. ft.)
1	6.8.1.500	9635 Grand Ronde Road	Residential, Wrecking Yard	2.35	1,584 Dwelling, 1,080 Building, 432 Building, 1,152 Building, 192 Building
2	6.8.11.D.1000	No Address	Vacant	4.61	Railroad Tracks
3	6.8.11.D.1100	No Address	Billboard	2.87	Billboard
4	6.8.11.D.1101	29005 Salmon River Highway	Billboard	2.36	Billboard
5	6.8.11.D.1200	29335 Salmon River Highway	Hardware Store, Book Store, Residential	1.84	6,266 Hardware Store, 4,660 Book Store, 3,624 Dwelling
6	6.8.11.D.1300	No Address	Vacant	0.94	Vacant

This table was created using Polk County Tax Assessors Tax Maps. Each tax lot should not be inferred to be a separate lawfully created lot or parcel. The deed to the subject property describes, in the legal description, how many lots or parcels comprise the subject property. The legal status of the lots or parcels described in a deed can be determined by evaluating the land-use applications made through the Polk County Planning Division and the deed history for the subject property.
