

Alyrica Networks Partners with Polk County Oregon to Bring High Speed Broadband to Rural Residents

Alyrica Networks, an Internet Service Provider, has completed building and deploying 2 brand new fixed wireless towers in rural Polk County through public partnership.

Philomath, OR (March 21, 2023) - Today, Alyrica Networks, through their public partnership with Polk County Oregon announced that they have completed the first 2 of 6 new wireless internet tower sites in the county.

The goal of the partnership with Polk County was to provide Broadband Access to 771 addresses in rural Polk County, North of Dallas, OR that are considered 'unserved' or 'underserved' by the Federal Communications Commission (FCC).

Alyrica CEO Sam Dotson and Polk County Commission Craig Pope (both pictured center) walk toward a newly constructed fixed wireless internet tower site north of Dallas, Oregon.

“We are very excited about these new tower sites. “, said CEO, Sam Dotson, “We were able to deploy technology that is designed and manufactured here in the United States. We are also the first ISP in Oregon to deploy this type of technology which will allow customers to get speeds up to 400/50 Mbps in areas that were previously unserved just a few weeks ago. This technology is efficient to deploy and costs a fraction of what a traditional wire to the home would cost.”

For those looking for internet access with these towers coming online, please contact Alyrica at [541-929-3330](tel:541-929-3330) or sales@alyrica.net or by simply inputting your information in at our website and one of our team will reach out to you: <https://app.alyrica.net/coverage/>
