Residential extensions may be granted for 180 days and commercial extensions may be granted for 90 days.

_____ **Permit Expiration:** A permit expires if work is not commenced within 180 days of permit issuance or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. To avoid permit expiration, a progress report (showing progress toward the permit) needs to be submitted in writing or an extension request needs to be submitted in writing showing justifiable cause to extend the permit prior to 180 days of inactivity, otherwise the permit will be expired. Extensions may be granted for 180 days.

If there are changes to the plans, specifications or valuation for the work being done on a permit, a new permit will need to be applied for.

_____ **Refunds:** I understand refunds may be requested upon written request of permit deposit/fees paid within 180 days of fee payment, less any plan review fees, landuse site review fees, administrative fees and state surcharge fees, for a permit under which no work has commenced. Refunds amounting to less than \$10 will not be processed.

_____ **Renewals:** I understand a structural permit may be renewed within 2 years of expiration of the permit upon submittal of the Permit Renewal Request Form, provided no changes have been made in the original plans and specifications for the work.
