138.010 PURPOSE The Farm/Forest (F/F) Zone is designed to provide for the full range of agricultural and forest uses for such lands, while providing for the maximum property tax benefits available (e.g. farm use assessment, timber tax treatment, open space deferral, wildlife habitat, etc.) and conformity with the Farm/Forest objectives and policies of the Polk County Comprehensive Plan.

Upon periodic revision of the Polk County Comprehensive Plan, the lands within the F/F designation shall be reviewed by the County Commissioners as to their continued appropriateness in such a designation or, alternatively rezoning to a more appropriate category.

As with other natural resource zones, there are isolated lands within the F/F Zone which have no actual or potential use for agricultural or forest purposes. In those cases, other non-natural resource uses may be permitted only as provided in this Chapter and in the Polk County Comprehensive Plan. Such uses must not be adverse to accepted agricultural or forest practices. Further, consistent with the diverse character of this zone and recognizing that the actual and potential land use conditions vary from intensive to extensive cultivation and use, the Board of County Commissioners has adopted this zone to deal with myriad potential uses, while recognizing the primary orientation of this zone towards farm and forest uses.

138.015 DEFINITIONS

For the purposes of this Chapter, the following definitions shall apply:

- (A) Auxiliary: As used in Section 138.040, "auxiliary" means a use or alteration of a structure or land which provides help or is directly associated with the conduct of a particular forest practice. An auxiliary structure is located on site, temporary in nature, and is not designed to remain for the forest's entire growth cycle from planting to harvesting. An auxiliary use is removed when a particular forest practice has concluded.
- (B) Definitions contained in ORS 197.015 and the Statewide Planning Goals.
- (C) Cubic Foot Per Acre Per Year [OAR 660-006-0005(3)] means the average annual increase in cubic foot volume of wood fiber per acre for fully stocked stands at the culmination of mean annual increment as reported by the USDA Natural Resource Conservation Service (NRCS) soil survey. [Amended by Ordinance 11-03]
- (D) Cubic Foot Per Tract Per Year [OAR 660-006-0005(4)] means the average annual increase in cubic foot volume of wood fiber per tract for fully stocked stands at the culmination of mean annual increment as reported by the USDA Natural Resource Conservation Service (NRCS) soil survey. [Amended by Ordinance 11-03]
- (E) Date of Creation and Existence: When a lot, parcel or tract is reconfigured pursuant to applicable law after November 4, 1993, the effect of which is to qualify a lot, parcel or tract for the siting of a dwelling, the date of the reconfiguration is the date of creation or existence. Reconfigured means any change in the boundary of the lot, parcel or tract.
- (F) Forest Operation means any commercial activity relating to the growing or harvesting of any forest tree species as defined in ORS 527.620(6).
- (G) Relative means a child, parent, stepparent, grandchild, grandparent, stepgrandparent, sibling, stepsibling, niece, nephew or first cousin as defined in ORS 215.283(1)(e)(A).
- (H) Tract means one or more contiguous lots or parcels in the same ownership.
- (I) Center of the Subject Tract: As used in Section 138.080(B), "center of the subject tract" means the mathematical centroid of the tract. [Amended by Ordinance 23-01]

138.020 FARM/FOREST OVERLAY ZONE The uses allowed for a tract subject to the Farm/Forest Overlay Zone shall be the same uses as those permitted in the Farm/Forest Zoning

District. Land division standards for a tract subject to the Farm/Forest Overlay Zone are those described in Section 138.130 of the Polk County Zoning Ordinance.

 - (a) Technical and engineering feasibility;
 - (b) The proposed facility is locationally dependent. A utility facility is locationally dependent if it must cross land in one or more areas zoned for exclusive farm use in order to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.
 - (3) The owner of a utility facility approved under this section shall be responsible for restoring, as nearly as possible, to its former condition any agriculture land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the utility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.
 - (4) The governing body of the county or its designee shall impose clear and objective conditions on an application for utility siting to migrate and minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in order to prevent a significant change in accepted farm practices or a significant increase in the cost of farm practices on surrounding farmlands.

- (5) Utility facilities necessary for public service may include on-site and off-site facilities for temporary workforce housing for workers constructing a utility facility. Such facilities must be removed or converted to an allowed use under OAR 660-033-0130(19) or other statute or rule when project construction is complete. Off-site facilities allowed under this paragraph are subject to OAR 660-033-0130(5). Temporary workforce housing facilities not included in the initial approval may be considered through a subsequent application. Such a request shall have no effect on the original approval. [Amended by Ordinance 11-03]
- (6) In addition to the provisions of subsections (E)(1) to (4) of this section, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) in an exclusive farm use zone shall be subject to the provisions of OAR 660-011-0060.
- (7) The provisions of subsections (E)(1) to (4) of this section do not apply to interstate natural gas pipelines and associated facilities authorized by and subject to regulations by the Federal Energy Regulatory Commission.

- (H) Wind Energy Systems Utilizing a Tower and Meteorological Towers Outside of an Adopted Urban Growth Boundary that are not Commercial Power Generating Facilities that would utilize a tower(s) that requires lighting or that requires modification to the height or type of construction standards described in Section 112.135(C)(1), as provided in Sections 112.135 and 112.137. [Amended by Ordinance 09-06]
- (I) Composting Facilities on High-Value Farmland [OAR 660-033-0130(29)(a)], Composting operations and facilities allowed on high-value farmland are limited to those that are accepted farming practices in conjunction with and auxiliary to farm use on the subject tract, and that meet the performance and permitting requirements of the Department of Environmental Quality (DEQ) under OAR 340-093-0050 and 340-096-0060. Excess compost may be sold to neighboring farm operations in the local area and shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility. Existing facilities may be expanded on the same tract, subject to other requirements of law. [Amended by Ordinance 11-03]

PARKS/PUBLIC/QUASI-PUBLIC FACILITIES

A "tract" is defined as one (1) or more contiguous lots or parcel(s) under the same ownership.

Predominant use is defined as more than 50 percent of the area of the tract. Polk County will review tax assessor records, aerial photos, soils capability data, and existing uses to determine on a case-by-case basis whether a tract was predominantly used for farm or forest purposes as of January 1, 1993.

138.080 USES SUBJECT TO ADMINISTRATIVE REVIEW AND BASED ON THE DETERMINATION OF PREDOMINATE USE OF TRACT IN ACCORDANCE WITH SECTION 138.070 The following uses are permitted, subject to review and approval under the prescriptive standards specified herein, the general siting standards for dwellings and structures under Section 138.110, the fire siting standards for dwellings and structures under 138.120, and as may otherwise be indicated by federal, state and local permits or regulations. [Amended by Ordinance 11-03 and 23-01]

DWELLINGS

- (1) Dwelling for the Farm Operator on High-Value Farmland [OAR 660-033-0135(4) and (9)]. A Farm Dwelling may be authorized on a tract of land classified as high-value, where the tract meets the following criteria:
 - (a) The subject tract is currently in farm use and has produced at least \$80,000 gross annual income from the sale of farm products, each of the last 2 years, or 3 out of the past 5 years, or in an average of three of the last five years. Only gross income from land owned, not leased or rented shall be counted. When determining gross annual income for livestock operations, the cost of purchased livestock must be deducted from the total gross income attributed to the farm or ranch operation as defined in OAR 660- 033-0135(11)(b). Noncontiguous lots or parcels designated for exclusive farm use in Polk County or a contiguous county may be used to meet the gross income requirements. Gross farm income earned from a marijuana crop may not be used to qualify a lot or parcel for a dwelling. Gross farm income earned from a lot or parcel which has been used previously to qualify another lot or parcel for the construction or siting of a primary farm dwelling may not be used unless both dwellings are subsequently authorized by provision of law; [Amended by Ordinance 18-01]
 - (b) The tract is currently vacant (no dwellings, excepting lawfully established seasonal farm worker housing on lands designated for exclusive farm owned by the farm operator or on the farm operation); and

- (c) The dwelling will be occupied by a person or persons who produced the commodities which provided the income under subsection 1 above.
 - (d) At the time of application for a dwelling that requires one or more contiguous or noncontiguous lots or parcels of a farm or ranch operation to comply with the gross income requirements, the property owner shall provide a title report, for those lots or parcels located within a contiguous county, that was generated within 30 days of date the application is submitted.
 - (e) Prior to issuance of construction permits for a dwelling that requires one or more contiguous or noncontiguous lots or parcels of a farm or ranch operation to comply with the gross income requirements, the property owner shall provide for the recording of a deed restriction with the Polk County Clerk consistent with that required by OAR 660-033-0135(9) for the properties subject to the application that precludes:
 - (i) All future rights to the establishment of a dwelling, except for accessory farm dwellings, relative farm assistance dwellings, temporary hardship dwellings or replacement dwellings allowed by ORS Chapter 215;
 - (ii) The use of any gross farm income earned on the lots or parcels to qualify another lot or parcel for a primary farm dwelling. **[Amended by Ordinance 16-01]**
- (2) *Small Tract Dwelling on High-Value Farmland [OAR 660-033-0130(3)(d)]*. A dwelling may be authorized on a tract of land classified as high-value, where the tract meets the following requirements:
- (a) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner since prior to January 1, 1985 (Note: Present owner may also qualify, if the property was inherited by devise or intestate secession from a person that acquired and had owned continuously the lawfully created parcel since prior to January 1, 1985);
 - (b) The tract is currently vacant (no dwellings, excepting lawfully established seasonal farm worker housing);
 - (c) If the lot or parcel on which the dwelling will be sited was part of a tract existing on November 4, 1993 and no dwelling exists on another lot or parcel that was part of that tract;
 - (d) The dwelling meets all other requirements of the Comprehensive Plan and land use regulations, including but not limited to regulations which apply to flood hazard areas, development within the Willamette River Greenway, development in forested areas or development in significant resource areas, such as riparian or big game habitat; and
 - (e) Any adjacent lot(s) or parcel(s) owned by the applicant shall be combined with the subject parcel to form a single lot or parcel;
 - (f) The tract where the dwelling would be sited is:

 - (ii) Composed predominately of high-value (NRCS) Class III and IV soils identified in OAR 660-033-0020(8)(c) or (d); or
 - (iii) Composed predominantly of a combination of high-value NRCS Class III and IV soils identified in OAR 660-033-0020(8)(c) or (d) and prime, unique, NRCS Class I or II soils identified in OAR 660-033-0020(8)(a) or (b);

- (iv) Twenty-one (21) acres or less in size; and

- (vi) The tract is not a flag lot and is bordered on at least 25% of its perimeter by tracts less than 21 acres in size and at least four dwellings existed on Jan. 1, 1993, within one-quarter mile of the center of the subject tract. Where the tract abuts an urban growth boundary, up to 2 of the 4 dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary; or
- (vii) The tract is a flag lot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within ¼ mile of the center of the subject tract and on the same side of the public road that provides access to the subject tract. Where the tract abuts an urban growth boundary, up to 2 of the 4 dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary. The center of the tract shall be the point where half of the acreage is north, south, east, and west of the point, unless requested by the applicant to use the “geographic center of the flag lot”. The geographic center of the flag lot means the point of intersection of two perpendicular lines of which the first line crosses the midpoint of the longest side of a flag lot, at a 90-degree angle to the side, and the second line crosses the midpoint of the longest adjacent side of the flag lot. Regardless of the method of determining the center, the center of the subject tract shall be located on the subject tract. [OAR 660-033-0130(3)(d)(D)]

Only gross income from land owned, not leased or rented shall be counted. When determining gross annual income for livestock operations, the cost of purchased livestock must be deducted from the total gross income attributed to the farm or ranch operation. [660-033-0130(3)(i)]
 - (g) Upon approval, the Planning Director shall notify the County Assessor that the governing body intends to allow the dwelling. [660-033-0130(3)(h)]

Note:

- (1) As used in this subsection, “owner” includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, nephew, stepparent, stepchild, grandparent, or grandchild of the owner or a business entity owned by any one or a combination of these family members.
- (2) Soil classes, soil ratings or other soil designations used in or made pursuant to this section are those of the Soil Conservation Service in its most

recent publication for that class, rating or designation before November 4, 1993. For purposes of approving a land use application under Section 138.080(A)(8), the soil class, soil rating or other soil designation of a specific lot or parcel may be changed if the property owner:

- (a) Submits a statement of agreement from the Natural Resources Conservation Service of the United States Department of Agriculture that the soil class, soil rating or other soil designation should be adjusted based on new information; or
- (b) Submits a report from a soils scientist whose credentials are acceptable to the State Department of Agriculture that the soil class, soil rating or other soil designation should be changed; and
- (c) Submits a statement from the State Department of Agriculture that the Director of Agriculture or the director's designee has reviewed the report described in subparagraph (A) of this paragraph and finds the analysis in the report to be soundly and scientifically based. [ORS 215.710(5)]

(7) Lot-of-Record Dwelling on High-Value Farmland [OAR 660-033-0130(3)(c)]. A dwelling may be authorized on a tract of land classified as high-value, where the tract meets the following criteria:

- (a) The Polk County Hearings Officer shall determine whether the subject parcel is a lot-of-record, based on the following criteria:
 - (i) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner since prior to January 1, 1985 (Note: Present owner may also qualify, if the property was inherited by devise or intestate secession from a person that acquired and had owned continuously the lawfully created parcel prior to January 1, 1985);
 - (ii) The tract on which the dwelling will be sited is currently vacant (no dwellings, excepting lawfully established seasonal farm worker housing);
 - (iii) If the lot or parcel on which the dwelling will be sited was part of a tract existing on November 4, 1993 no dwelling exists on another lot or parcel that was part of that tract;
 - (iv) The dwelling meets all other land use regulations, including but not limited to regulations which apply to flood hazard areas, development within the Willamette River Greenway, development in forested areas or development in significant resource areas, such as riparian or big game habitat; and
 - (v) Any adjacent lot(s) or parcel(s) owned by the applicant shall be combined with the subject lot to form a single lot or parcel.
- (b) The Hearings Officer shall determine that:
 - (i) The parcel cannot practicably be managed for farm use, by itself, or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. This criterion requires evidence that the subject lot or parcel cannot be physically used for farm use without undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel's limited economic potential demonstrate that a lot or parcel cannot be practicably managed for farm use. Examples of "extraordinary circumstances inherent in the land or its physical setting" include very steep slopes, deep ravines, rivers, streams, roads, railroad, or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural

land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A lot or parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use;

- (ii) The dwelling will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm and forest use;
- (iii) The dwelling will not significantly increase the cost of farm or forest practices on surrounding lands devoted to farm and forest use; and
- (iv) The applicant shall demonstrate that the proposed lot-of-record dwelling will not materially alter the stability of the overall land use pattern in the area.
- (v) Notice of the public hearing shall be provided to the State Department of Agriculture at least 20 calendar days prior to the public hearing before the hearings officer. Upon approval, the Planning Director shall notify the County Assessor that the governing body intends to allow the dwelling. [660-033-0130(3)(h)]
- (vi) Authorization of a single-family dwelling under the provisions of this subsection may be transferred by a person who has qualified under this subsection to any other person after the effective date of the land use decision. An authorization to establish a dwelling pursuant to this subsection is valid for the duration specified in Section 138.190 for the applicant that qualified for the dwelling and for any other person that the qualified applicant transferred the property to after the date of the land use decision. [660-033-0130(3)(i)]

Note: As used in this subsection, “owner” includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, nephew, stepparent, stepchild, grandparent, or grandchild of the owner or a business entity owned by any one or a combination of these family members.

- (8) *Dwelling for Family Farm Help* [OAR 660-033-0130(9)]. A dwelling for family farm help may be authorized, on the same lot or parcel as the dwelling of the farm operator, where the dwelling will be occupied by a relative of the farm operator whose assistance in the management and farm use of the existing commercial farm operation is required by the farm operator. The farm operator shall continue to play the predominant role in the management and use of the farm. A farm operator is a person who operates a farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing. “Relative” means the farm operator or farm operators’ spouse, grandparent, step-grandparent, grandchild, parent, step-parent, child, brother, sister, sibling, step-sibling, niece, nephew, or first cousin of either of the farm operator, or the farm operator's spouse, whose assistance in the management of the farm use is or will be required by the farm operator.
- (9) *Accessory Farm Dwellings* [OAR 660-033-0130(24)]. Each accessory dwelling customarily provided in conjunction with farm use is authorized, subject to review and approval under the following criteria:
 - (a) Each dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose assistance in the management of the farm use, such as planting, harvesting, marketing, or caring for livestock, is or will be required by the farm operator. (Note: The farm operator shall continue to play the predominant role in the management and farm use of the farm. A farm operator is a person who operates the farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing);

- (b) The accessory dwelling will be located:
 - (i) On the same lot or parcel as the primary farm dwelling; or
 - (ii) On the same tract as the primary farm dwelling when the lot or parcel on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcel in the tract; or
 - (iii) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only a manufactured dwelling with a deed restriction filed with the county clerk. The deed restriction shall require the manufactured dwelling to be removed when the lot or parcel is conveyed to another party. The manufactured dwelling may remain if it is re-authorized under these rules; or
 - (iv) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing on the farm or ranch operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. All accessory farm dwellings approved under this subparagraph shall be removed, demolished, or converted to an authorized non-residential use when farm worker housing is no longer required; or
 - (v) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is located on a lot or parcel at least the size of the applicable minimum lot size under ORS 215.780 and the lot or parcel complies with the gross farm income requirements in OAR 660-033-0135(5) or (7), whichever is applicable, and
- (c) There is no other dwelling on lands zoned for exclusive farm use owned by the farm operator that is vacant or currently occupied by persons not working on the subject farm or ranch and that could reasonably be used as an accessory farm dwelling; and
- (d) The primary farm dwelling, to which the proposed dwelling would be accessory, meets one of the following:
 - (i) On land not identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use and produced in each of the last two years or three of the last five years, the lower of the following:
 - (A) At least \$40,000 (1994 dollars) in gross annual income from the sale of farm products. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or
 - (B) Gross annual income of at least the midpoint of the median income range of gross annual sales for farms in the county with gross annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon. (Note: Gross farm income earned from a marijuana crop may not be used to qualify a lot or parcel for a dwelling. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract); or
 - (ii) On land identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use and has produced at least \$80,000 in gross annual income from the sale of farm products in each of the last two years or three of the last five years. In determining the

gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract;

(iii) On land defined as a commercial dairy pursuant to OAR 660-033-0135(11) and the following:

(A) The building permits, if required, have been issued and construction has begun or been completed for the buildings and animal waste facilities required for a commercial dairy farm; and

138.090 CONDITIONAL USES BASED ON THE DETERMINATION OF PREDOMINANT USE OF TRACT IN ACCORDANCE WITH SECTION 138.070, the following conditional uses may be approved, subject to compliance with the procedures and criteria under Chapter 119, the general siting standards for dwellings and structures under Section 138.110, the fire siting standards for dwellings and structures under 138.120, applicable state and federal regulations, and other specific criteria as may be indicated: [Amended by Ordinance 11-03]

(A) **FARM LAND TRACT** - Uses permitted as conditional uses on a tract where the predominate use has been determined to be farm use:

DWELLINGS

- (1) *Nonfarm Dwelling - Not High-Value Farmland*, (except as noted) [OAR 660-033-0130(4)(a)]. A nonfarm dwelling may be authorized on a parcel, not classified as high-value farmland, except as noted, subject to the following criteria:
 - (a) The dwelling will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm and forest use;
 - (b) The dwelling will not significantly increase the cost of farm or forest practices on surrounding lands devoted to farm and forest use;
 - (c) The dwelling will be placed on a lot or parcel created before January 1, 1993;
 - (d) The dwelling will be located on a parcel that is predominately composed of NRCS Class IV through VIII soils that, when irrigated, would not be classified as prime or unique, Class I or II soils (Note: This includes those Class IV soils defined as high-value farmland in OAR 660-033-0020(c));

- (e) The applicant shall demonstrate that the proposed nonfarm dwelling will not materially alter the stability of the overall land use pattern of the area. To address this standard, the applicant shall prepare a cumulative impact study that:
 - (i) Includes at least 2,000 acres or a smaller area not less than 1,000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcels and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or non-resource uses shall be identified but not be included in the study area;
 - (ii) The cumulative impacts study shall identify the broad types of farm uses (irrigated or non-irrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc), and the dwelling development trends since 1993. Determine the potential number of nonfarm / lot-of-record dwellings that could be approved under Subsections 138.080(A)(8) and (10) and 138.090(A)(1). The study shall identify the predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under Section 138.090(A)(2) and Section 138.140(A)(2)(c). Findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;
 - (iii) Describes whether the proposed dwelling in conjunction with the dwellings identified in (ii) above will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area. Determine whether approval of the proposed nonfarm dwelling together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. (Note: The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area).
- (f) The county shall consider the cumulative impact of possible new nonfarm and lot-of-record dwellings together with existing nonfarm dwellings on other lots or parcels in the area when determining whether the proposed nonfarm dwelling will alter the stability of the land use pattern in the area.
- (g) The dwelling complies with other applicable conditions.

Note: The parcel qualifying for a dwelling under this section shall be disqualified for Farm Use Assessment pursuant to ORS 215.236.

- (2) *Nonfarm Dwelling on a Nonfarm Parcel - Not High-Value Farmland [OAR 660-033-0130(4)(b)]*. A nonfarm dwelling may be authorized on a nonfarm parcel created under Section 138.130(A)(2)(c), subject to the following criteria:

- (a) The dwelling will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm and forest use;

- (b) The dwelling will not significantly increase the cost of farm or forest practices on surrounding lands devoted to farm and forest use;
- (c) The applicant shall demonstrate that the proposed nonfarm dwelling will not materially alter the stability of the overall land use pattern of the area. To address this standard, the applicant shall prepare a cumulative impact study that:
 - (i) Includes at least 2,000 acres or a smaller area not less than 1,000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall described the study area its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcels and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or non-resource uses shall be identified, but not included in the study area;
 - (ii) The cumulative impacts study shall identify the broad types of farm uses (irrigated or non-irrigated corps, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc), and the dwelling development trends since 1993. Determine the potential number of nonfarm / lot-of-record dwellings that could be approved under Subsections 138.080(A)(8) and (10) and 138.090(A)(1). The study shall identify the predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under Section 138.090(A)(2) and Section 138.140(A)(2)(c). Findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;
 - (iii) Describes whether the proposed dwelling in conjunction with the dwellings identified in (ii) above will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area. Determine whether approval of the proposed nonfarm dwelling together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. (Note: The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area).
- (d) The county shall consider the cumulative impact of possible new nonfarm and lot-of-record dwellings together with existing nonfarm dwellings on other lots or parcels in the area when determining whether the proposed nonfarm dwelling will alter the stability of the land use pattern in the area.
- (e) The dwelling complies with other applicable conditions.

Note: The parcel qualifying for a dwelling under this section shall be disqualified for Farm Use Assessment pursuant to ORS 215.236.

- (B) **FOREST LAND TRACT** - Uses permitted as conditional uses on a tract where the predominate use has been determined to be forest use.

PARKS/PUBLIC/QUASI-PUBLIC FACILITIES

[Amended by Ordinances 01-10 and 11-03]

138.100 GENERAL REVIEW STANDARDS [OAR 660-033-0130(5) and OAR 660-006-0025(5)]. To ensure compatibility with farming and forest activities, the Planning Director or hearings body shall determine that the proposed use meets the following requirements:

- (A) The use will not force a significant change in, or significantly increase the cost of, accepted farming or forest practices on agriculture or forest lands.
- (B) The use will not significantly increase fire hazard or significantly increase fire suppression costs or significantly increase risks to fire suppression personnel;
- (C) A written statement recorded with the deed or written contract with the county or its equivalent shall be obtained from the land owner that recognizes the rights of adjacent and nearby land owners to conduct forest operations consistent with the Forest Practices Act and Rules. [Amended by Ordinance 11-03]

138.105 EXPANSION AND UGB PROXIMITY STANDARDS [OAR 660-033-0130(2)].

- (A) No enclosed structure with a design capacity greater than 100 people, or group of structures with a total design capacity of greater than 100 people, shall be approved in connection with the use within three miles of an urban growth boundary, unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4, or unless the structure is described in a master plan adopted under the provisions of OAR chapter 660, division 34.
- (B) Any enclosed structures or group of enclosed structures described in subsection (a) within a tract must be separated by at least one-half mile. For purposes of this section, "tract" means a tract as defined by ORS 215.010(2) that is in existence as of June 17, 2010.
- (C) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law, but enclosed existing structures within a farm use zone within three miles of an urban growth boundary may not be expanded beyond the requirements of this rule. [Amended by Ordinance 11-03]

138.110 GENERAL SITING STANDARDS FOR DWELLINGS AND STRUCTURES [OAR 660-006-0029]. The following standards apply to all new dwellings and structures: [Amended by Ordinance 11-03 and 23-01]

- (A) The following siting criteria or their equivalent shall apply to all new dwellings and structures in forest and agriculture/forest zones. These criteria are designed to make such uses compatible with forest operations and agriculture, to minimize wildfire hazards and risks and to conserve values found on forest lands. Dwellings and structures shall be sited on the parcel so that:
 - (1) They have the least impact on nearby or adjoining forest or agricultural lands;
 - (2) The siting ensures that adverse impacts on forest operations and accepted farming practices on the tract will be minimized;
 - (3) The amount of forest lands used to site access roads, service corridors, the dwelling and structures is minimized; and
 - (4) The risks associated with wildfire are minimized.
- (B) Siting criteria satisfying subsection (A) may include setbacks from adjoining properties, clustering near or among existing structures, siting close to existing roads and siting on that portion of the parcel least suited for growing trees.

- (C) The applicant shall provide evidence to the governing body that the domestic water supply is from a source authorized in accordance with the Water Resources Department's administrative rules for the appropriation of ground water or surface water and not from a Class II stream as defined in the Forest Practices rules (OAR chapter 629). For purposes of this section, evidence of a domestic water supply means:
 - (1) Verification from a water purveyor that the use described in the application will be served by the purveyor under the purveyor's rights to appropriate water;
 - (2) A water use permit issued by the Water Resources Department for the use described in the application; or
 - (3) Verification from the Water Resources Department that a water use permit is not required for the use described in the application. If the proposed water supply is from a well and is exempt from permitting requirements under ORS 537.545, the applicant shall submit the well constructor's report to the county upon completion of the well.
- (D) As a condition of approval, if road access to the dwelling is by a road owned and maintained by a private party or by the Oregon Department of Forestry, the U.S. Bureau of Land Management or the U.S. Forest Service, then the applicant shall provide proof of a long-term road access use permit or agreement. The road use permit may require the applicant to agree to accept responsibility for road maintenance.
- (E) Approval of a dwelling on a parcel or tract which is larger than 10 acres in size shall be subject to the following requirements:
 - (1) Approval of a dwelling requires the owner of the tract to plant a sufficient number of trees on the tract to demonstrate that the tract is reasonably expected to meet Department of Forestry stocking requirements at the time specified in the Department of Forestry administrative rules.
 - (2) The Planning Department shall notify the Polk County Assessor of the above condition at the time the dwelling is approved.
 - (3) The property owner shall submit a stocking survey report to the Polk County Assessor and the Assessor shall verify that the minimum stocking requirements have been met by the time required by the Department of Forestry Rules.
 - (4) Upon notification by the Assessor, the Department of Forestry will determine whether the tract meets minimum stocking requirements of the Forest Practices Act. If the Department determines that the tract does not meet those requirements, the department will notify the owner and the Assessor that the land is not being managed as forest land. The Assessor will then remove the forest land designation pursuant to ORS 321.359 and impose additional tax.

138.120 FIRE SITING STANDARDS FOR DWELLINGS AND STRUCTURES [OAR 660-006-0035]. The following standards apply to all new dwellings and structures: [Amended by Ordinance 11-03 and 23-01]

- (A) The dwelling shall be located upon a parcel within a fire protection district or shall be provided with residential fire protection by contract. If the dwelling is not within a fire protection district, the applicant shall provide evidence that the applicant has asked to be included within the nearest such district. If the governing body determines that inclusion within a fire protection district or contracting for residential fire protection is impracticable, the governing body may provide an alternative means for protecting the dwelling from fire hazards. The means selected may include a fire sprinkling system, onsite equipment and water storage or other methods that are reasonable, given the site conditions.
